

China Yuchai Forms Strategic Partnership with Sunlong Bus to Develop Electric Vehicles

SINGAPORE, June 2, 2021/PRNewswire/ - China Yuchai International Limited (NYSE: CYD) (“China Yuchai” or the “Company”) announced today it has entered into a strategic partnership agreement with an electric vehicle (“EV”) bus producer in China, Guangxi Shenlong Automobile Manufacturing (“Sunlong”).

According to the strategic partnership agreement, China Yuchai and Sunlong will join technologies to develop new energy vehicles based upon China Yuchai’s four new energy powertrain systems including the ISG power generation powertrain (“YC IE-Power”), e-CVT power-split hybrid powertrain (“YC e-CVT”), integrated electric drive axel powertrain (“YC e-Axel”), and a fuel cell system (“YC FCS”). In addition to product development, China Yuchai and Sunlong will leverage each other’s supply chains and distribution networks, especially in international markets, with a focus on entering into the southeast Asian markets.

Headquartered in Nanning, Guangxi Province, Sunlong specializes in new energy buses, and logistical vehicle development and production in southern China. In the past, China Yuchai has supplied its electric direct drive system, hybrid system and Nat VI-compliant CNG natural gas engine to Sunlong for its vehicles sold in southern and western China. In April 2021, the first batch of Sunlong buses featuring China Yuchai’s new energy powertrain systems was successfully delivered to the Nanning local public transit operator.

Mr. Weng Ming Hoh, President of China Yuchai, commented, “We are excited to ink this important strategic partnership with Sunlong and make further inroads into the fast-growing new energy vehicle market in China and abroad.”

About China Yuchai International

China Yuchai International Limited, through its subsidiary, GYMCL, engages in the manufacture, assembly, and sale of a wide variety of light-, medium- and heavy-duty engines for trucks, buses, passenger vehicles, construction equipment, marine and agriculture applications in China. GYMCL also produces diesel power generators. The engines produced by GYMCL range from diesel to natural gas and hybrid engines. Through its regional sales offices and authorized customer service centers, GYMCL distributes its engines directly to auto OEMs and retailers and provides maintenance and retrofitting services throughout China. Founded in 1951, GYMCL has established a reputable brand name, strong research and development team and significant market share in China with high-quality products and reliable after-sales support. In 2020, GYMCL sold 430,320 engines and is recognized as a leading manufacturer and distributor of engines in China. For more information, please visit <http://www.cylimited.com>.
