China Yuchai International Announces Unaudited Results for Third Quarter of 2009

Singapore, Singapore — November 10, 2009 — China Yuchai International Limited (NYSE: CYD) (“China Yuchai” or the “Company”), announced today its unaudited consolidated financial results for the third quarter ended September 30, 2009. As the financial results for the third quarter of 2008 were not announced, comparative results are not included below.

Net revenues for the third quarter of 2009 were RMB 3,488.4 million (US\$ 510.8 million) compared with RMB 3,448.0 million (US\$ 504.7 million) in the second quarter of 2009. The total number of diesel engines sold by the Company’s main operating subsidiary, Guangxi Yuchai Machinery Company Limited (“GYMCL”), during the third quarter of 2009 was 114,855 units compared with 129,932 units in the second quarter of 2009. The increase in net revenues was primarily the result of price improvements across a number of diesel engine models.

Gross profit was RMB 582.2 million (US\$ 85.3 million) in the third quarter of 2009, representing a 21.2% increase over the gross profit of RMB 480.2 million (US\$ 70.3 million) in the second quarter of 2009. The gross margin was 16.7%, a 2.8% improvement over the gross margin of 13.9% for the second quarter of 2009.

Research and development (“R & D”) expenses were RMB 72.3 million (US\$ 10.6 million) in the third quarter of 2009 versus RMB 71.1 million (US\$ 10.4 million) in the second quarter of 2009. As a percentage of net revenues, R & D spending was 2.1% of net revenues in both the second and third quarters of 2009.

Selling, general & administrative expenses (“SG & A”) in the third quarter of 2009 were RMB 249.5 million (US\$ 36.5 million) compared with RMB 283.1 million (US\$ 41.4 million) in the second quarter of 2009. SG & A expenses represented 7.2% of third quarter net revenues compared with 8.2% of second quarter net revenues. SG & A expenses declined mainly due to lower selling expenses in the third quarter of 2009 in line with a lower number of units sold.

Operating income was RMB 260.4 million (US\$ 38.1 million) in the third quarter of 2009, a 107% increase over the RMB 126.0 million (US\$ 18.4 million) in the second quarter of 2009. The increase is mainly due to higher gross profit. The operating margin was 7.5% in the third quarter of 2009 compared with 3.7% in the second quarter of 2009.

Other income in the third quarter of 2009 was RMB 111.0 million (US\$ 16.3 million) compared with a loss of RMB 1.4 million (US\$ 0.2 million) in the second quarter of 2009 due to a dividend received from an associate of GYMCL, a gain from the maturity of zero coupon unsecured non-convertible bonds previously issued by HL Global Enterprises Limited, foreign exchange gains, and interest income.

Net income was RMB 248.6 million (US\$ 36.4 million), or earnings per share of RMB 6.67 (US\$ 0.98), in the third quarter of 2009 compared with RMB 49.6 million (US\$ 7.3 million), or earnings per share of RMB 1.33 (US\$ 0.19) in the second quarter of 2009. The net margin for the third quarter of 2009 was 7.1% compared with 1.4% in the second quarter of 2009. The increase in the net margins is primarily due to higher gross profits and a greater contribution from Other Income in the third quarter of 2009. As of September 30, 2009, a total of 37,267,673 shares were issued and outstanding.

For the nine months ended September 30, 2009, net revenues were RMB 9,860.5 million (US\$ 1.4 billion) and diesel engine sales were 366,536 units. The gross profit was RMB 1,445.8 million (US\$ 211.7 million) representing a 14.7% gross margin. Operating income was RMB 690.8 million (US\$ 101.2 million) which included a one-time write-back of approximately RMB 203.0 million (US\$ 29.7 million) in the first quarter of 2009 resulting from GYMCL's acquisition of Yulin Hotel Company.

Net income for the nine months ended September 30, 2009 was RMB 532.5 million (US\$ 78.0 million), or earnings per share of RMB 14.29 (US\$ 2.09). Excluding the gain from the acquisition of Yulin Hotel Company, net income would have been RMB 377.5 million (US\$ 55.2 million), or earnings per share of RMB 10.13 (US\$ 1.48).

In September 2009, China Yuchai declared a \$0.10 per ordinary share cash dividend that was paid out on October 16, 2009.

Mr. Boo Guan Saw, President of China Yuchai, commented, "We are pleased to be reporting a strong quarter resulting from improved profitability. We successfully shifted our product mix as the Chinese commercial vehicle market is on a healthy recovery track. After seeing the Chinese government's continued commitment to infrastructure construction and inland rural market development, we gradually increased our capacity in response to rising demand by original equipment manufacturers. We expanded our assembly capacity with our new state-of-the-art facility in Xiamen, and in the area of R&D, we continue to focus on developing green technology to propel our future growth. In October, we commenced construction of our new engineering institute in Nanning which aims to become the premier R&D facility dedicated to diesel engine technology in China. Upon commercial launch of this R&D facility, we expect to design products to meet the most stringent global quality and technology standards as well as accelerate our development of hybrid and other innovative technologies. Overall, quality is our top priority and we are implementing Sigma Six management policies to drive production efficiency and product quality which will ultimately result in long-term shareholder value."
