Yuchai Introduces Its First High-Pressure, Direct-Injection Pure Ammonia Internal Combustion Engine For Heavy-Duty Commercial Vehicles

Singapore, May 14, 2026 – China Yuchai International Limited (NYSE: CYD)(“China Yuchai International” or the “Company”), one of the largest powertrain solution manufacturers through its main operating subsidiary in China, Guangxi Yuchai Machinery Company Limited (“Yuchai”), today introduced its first high-pressure, direct-injection internal combustion engine capable of operating entirely on ammonia and designed for heavy-duty commercial vehicles.

This is a historic breakthrough for Yuchai in its low- and zero-carbon power research initiatives in hydrogen-, methanol-, and now, ammonia-based propulsion. This milestone validates and operationalizes key technologies; specifically the integration of a high-pressure ammonia-to-hydrogen generation system with the high-pressure direct injection of liquid ammonia ignited via a pre-chamber jet.

With a thermal efficiency on par with the highest levels of heavy-duty diesel engines, this technology delivers a new zero-carbon power solution for heavy-duty, long-haul commercial vehicles. This innovation effectively balances the advantages of low total lifecycle costs with the need to reduce carbon emissions, facilitating the transition from traditional internal combustion engines toward a sustainable, zero-carbon future.

Weng Ming Hoh, President of China Yuchai International, commented, “This breakthrough meaningfully broadens our technology foundation and the next-generation power solutions we provide, unlocking significant potential for carbon reductions. Building on this momentum, Yuchai will further strengthen its innovative R&D capabilities in ammonia-energy applications, reinforcing our commitment to helping China achieve its ‘Dual Carbon’ strategic goals.”

About China Yuchai International

China Yuchai International, through its principal operating subsidiary, Guangxi Yuchai Machinery Company Limited (“Yuchai”), is one of the leading powertrain solutions manufacturers in China. Founded in 1951, Yuchai maintains a reputable brand name, a strong research and development team, and a significant market share in China. Yuchai specializes in the design, manufacture, and sale of light-, medium- and heavy-duty engines for trucks, buses, pickups, construction and agricultural equipment, and marine and power generation applications. It delivers a comprehensive portfolio of powertrain solutions, spanning traditional diesel and natural gas engines to alternate fuels and new energy products, including pure electric, range extenders, hybrid, and fuel cell systems. Through an extensive network of regional sales offices and authorized customer service centers, Yuchai distributes engines directly to auto OEMs and distributors while providing after-sales services across China and globally. In 2025, Yuchai sold 461,309 engines and reported total revenue of RMB 24.6 billion. For more information, please visit <http://www.cyilimited.com>.
