### Notes to the Condensed Interim Consolidated Financial Statements For the Half Year Ended 30 June 2025

#### 1. Corporate information

Hong Leong Asia Ltd. (the "Company") is a limited liability company incorporated and domiciled in Singapore and is listed on Singapore Exchange Securities Trading Limited ("Singapore Exchange"). The registered office of the Company is located at 16 Raffles Quay, #26-00 Hong Leong Building, Singapore 048581.

The principal activities of the Company have been those relating to investment holding.

The principal activities of the subsidiaries are those relating to the manufacturing and distribution of powertrain solutions and related products, building materials, rigid packaging products, air-conditioning systems (discontinued operation), and of investment holding and dealing.

The consolidated financial statements relate to the Company and its subsidiaries (referred to as the "Group") and the Group's interests in associates and joint venture entities.

The immediate and ultimate holding companies are Hong Leong Corporation Holdings Pte Ltd and Hong Leong Investment Holdings Pte. Ltd. respectively. These companies are incorporated in Singapore.

Related corporations relate to companies within the Hong Leong Investment Holdings Pte. Ltd. group.

#### 2. Summary of significant accounting policies

#### 2.1 Basis of preparation

The condensed interim consolidated financial statements for the half year ended 30 June 2025 have been prepared in accordance with Singapore Financial Reporting Standards (International) ("SFRS(I)") 1-34 Interim Financial Reporting.

The condensed interim consolidated financial statements do not include all the information required for a complete set of financial statements. However, selected explanatory notes are included to explain events and transactions that are significant to an understanding of the changes in the Group's financial position and performance of the Group since the last annual financial statements for the year ended 31 December 2024.

The accounting policies adopted are consistent with those of the previous financial year which were prepared in accordance with SFRS(I)s, except for the adoption of new and amended standards as set out in Note 2.2.

The condensed interim consolidated financial statements are presented in Singapore Dollars (SGD or \$) and all values are rounded to the nearest thousand (\$'000), except when otherwise indicated.

#### 2.2 New standards, interpretations and amendments adopted by the Group

A number of amendments to Standards have become applicable for the current reporting period. The Group did not have to change its accounting policies or make retrospective adjustments as a result of adopting those standards.

# Notes to the Condensed Interim Consolidated Financial Statements For the Half Year Ended 30 June 2025

#### 2. Summary of significant accounting policies (cont'd)

#### 2.3 Use of judgements and estimates

In preparing the condensed interim financial statements, management has made judgements, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets and liabilities, income and expense. Actual results may differ from these estimates.

The significant judgements made by management in applying the Group's accounting policies and the key sources of estimation uncertainty were the same as those that applied to the consolidated financial statements as at and for the year ended 31 December 2024.

Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimates are revised and in any future periods affected.

#### 3. Seasonal operations

The Group's businesses are not affected significantly by seasonal or cyclical factors during the financial period.

#### 4. Segment information

For management purpose, the Group is organised into business units based on their products and services and has two reportable operating segments as follows:

#### Reportable segments

- (i) Powertrain solutions: engines for on-road, off-road, gensets and marine applications.
- (ii) Building materials: cement, precast concrete products, ready-mix concrete and quarry products.

Other operations include rigid packaging products, hospitality and property development and air-conditioning systems (discontinued operation). None of these segments meet any of the quantitative thresholds for determining reportable segments in 2025 or 2024. Results relating to discontinued operation are excluded from this note as they are presented in a single line item as "(loss)/profit from discontinued operation, net of tax" in the income statement.

Information regarding the results of each reportable segment is included below. Performance is measured based on segment profit before income tax, as included in the internal management reports that are reviewed by the Group's Chief Executive Officer, who is the Chief Operating Decision Maker. Segment report is used to measure performance as management believes that such information is the most relevant in evaluating the results of certain segments relative to other entities that operate within these industries.

NM - Not meaningful

#### 11. Income tax expense

For the half year ended 30 June 2025, the Group's tax expenses included additional provision of \$255,000 for prior years (30 June 2024: additional provision of \$2,912,000 for prior years).

#### 12. Earnings per share

The weighted average number of ordinary shares adjusted for the effect of unissued ordinary shares under the Scheme is determined as follows:

|  | Gro   | oup   |
|--|---|---|
|  | Half year ended<br>30 June 2025<br>No. of<br>shares | Half year ended<br>30 June 2024<br>No. of<br>shares |
| Weighted average number of shares issued, used in<br>the calculation of basic earnings per share<br>Dilutive effect of share options | 748,113,368<br>126,013                              | 747,978,318<br>19,934                               |
| Weighted average number of ordinary shares (diluted)   | 748,239,381   | 747,998,252   |

As of 30 June 2025, there were no anti-dilutive share options under the Scheme. As of 30 June 2024, 260,000 share options granted to Group Employees (as defined in the Scheme) under the Scheme were excluded from the calculation of diluted earnings per share because they are anti-dilutive.

### 13. Related party transactions

#### (a) Sale and purchase of goods and services

During the half year ended 30 June 2025, the Group did not make payments to firms, in which a director has an interest, in respect of professional services rendered (30 June 2024: \$11,137). No balance was outstanding at the balance sheet date (31 December 2024: Nil).

Significant transactions with related parties made at terms agreed between the parties during the half year ended 30 June, other than those disclosed elsewhere in the financial statements, are as follows:

|   | Gro<br>Half year ended<br>30 June 2025<br>\$'000 | oup<br>Half year ended<br>30 June 2024<br>\$'000 |

| Net asset value per ordinary share (cents) | 134.9           | 5 135.58            | 34.5            | 1 35.18             |

### 16. Fair value of assets and liabilities

#### (a) Fair value hierarchy

The Group categorises fair value measurements using a fair value hierarchy that is dependent on the valuation inputs used as follows:

- Level 1 Quoted prices (unadjusted) in active markets for identical assets or liabilities that the Group can access at the measurement date,
- Level 2 Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly, and
- Level 3 Unobservable inputs for the assets or liability.

Fair value measurements that use inputs of different hierarchy levels are categorised in its entirety in the same level of the fair value hierarchy as the lowest level input that is significant to the entire measurement.

#### 16. Fair value of assets and liabilities (cont'd)

#### (b) Assets and liabilities measured at fair value

The following table shows an analysis of each class of assets and liabilities measured at fair value at the end of the reporting period:

|                        | Quoted prices in<br>active markets<br>for identical | Significant<br>observable<br>inputs other than |         |
|------------------------|---|--|---------|

# (c) Fair value of financial instruments by classes that are not carried at fair value and whose carrying amounts are reasonable approximation of fair value

The carrying amounts of current trade and other receivables, cash and short-term deposits, trade and other payables, and current loans and borrowings are reasonable approximation of fair values due to their short-term nature.

The carrying amounts of non-current receivables and other non-current liabilities are reasonable approximation of fair values as the consideration of time value of money is not material.

The carrying amounts of non-current loans and borrowings are reasonable approximation of fair values as they are floating rate instruments that are re-priced to market interest rates on or near the reporting period or their interest rates approximate the market lending rate.

#### 16. Fair value of assets and liabilities (cont'd)

# (c) Fair value of financial instruments by classes that are not carried at fair value and whose carrying amounts are reasonable approximation of fair value (cont'd)

Set out below is a comparison by category of carrying amounts of the Group's financial instruments that are carried in the financial statements:

#### Classification of financial instruments

|  | Financial assets at amortised cost \$'000 | Fair value<br>through other<br>comprehensive<br>income<br>\$'000 | Financial<br>liabilities<br>at amortised cost<br>\$'000 | Total<br>\$'000        |
|--|---|--|---|------------------------|
| 30 June 2025                             |   |  |   |                        |

<sup>\*</sup> Excludes advances paid to suppliers, prepaid expenses and tax recoverable.

#### 1. Review

The condensed interim consolidated balance sheets of Hong Leong Asia Ltd. and its subsidiaries as at 30 June 2025 and the related condensed interim consolidated income statement and other comprehensive income, condensed interim consolidated statement of changes in equity and condensed interim consolidated statement of cash flows for the half year period then ended and certain explanatory notes have not been audited or reviewed.

### 2. Notes to the financial statements for the half year ended 30 June 2025

2.1 Explanatory notes to the balance sheets of the Group and the Company

#### Group

Non-current assets: The decrease in non-current assets was mainly due to (a) depreciation of property, plant and equipment and translation loss as Renminbi ("RMB") weakened against the Singapore dollar ("SGD"), partially offset by additional capital expenditure during the half year ended 30 June ("1H") 2025, (b) amortisation of intangible assets and RMB translation loss, partially offset by capitalisation of development costs for National VI/VI(b), Tier 4 engines and new energy products, and (c) depreciation of right-of-use assets and RMB translation loss, partially offset by additions of right-of-use assets during 1H 2025.

This decrease was partially offset by the increase in interests in associates and joint ventures due to the recognition of share of profits of associates and joint ventures in 1H 2025, net of dividends received from a joint venture and associates.

There was a reclassification of non-current receivables amounting to \$51.2 million to interests in joint ventures upon capitalisation of intercompany loans to a joint venture during 1H 2025.

- Current assets: The increase in current assets was mainly due to (a) higher trade and
  other receivables mainly due to higher sales during the period, partially offset by RMB
  translation loss, and (b) higher cash and cash equivalents held as at 30 June 2025. This
  was partially offset by lower inventory mainly due to RMB translation effect.
- **Current liabilities**: The increase in current liabilities was mainly due to higher trade and other payables, loans and borrowing and provisions. In particular:
  - The increase in trade and other payables was mainly due to higher purchases during the period, partially offset by RMB translation effect.
  - The increase in loans and borrowings was mainly due to reclassification of loans (maturing within the next 12 months) from non-current liabilities to current liabilities, net of repayment.
  - Additional provision for warranty was taken up during 1H 2025 due to higher sales for the Group's Powertrain Solutions Unit ("Yuchai").
  - The increase in lease liabilities was mainly due to new leases taken up.

Contract liabilities decreased as there was less advanced payment from customers as at 30 June 2025. Current tax payables reduced as tax payments exceeded tax provision made in 1H 2025.

 Non-current liabilities: The decrease in non-current liabilities was mainly due to reclassification of loans (maturing within the next 12 months) to current liabilities and lower lease liabilities.

#### 2. Notes to the financial statements for the half year ended 30 June 2025 (cont'd)

2.1 Explanatory notes to the balance sheets of the Group and the Company (cont'd)

#### Group (cont'd)

- **Shareholders' equity:** The decrease in equity attributable to owners of the Company was because dividends paid and translation losses (due to depreciation of RMB against the SGD during the period) exceeded the current period profit.

#### Company

- Non-current assets: The increase in non-current assets was mainly due to reclassification of amounts due from subsidiaries to investment in subsidiaries upon capitalisation of the intercompany loans and related accrued interest.
- Current assets: The decrease in current assets was mainly due to reclassification of amounts due from subsidiaries to investment in subsidiaries upon capitalisation of the intercompany loans and related accrued interest, lower cash and cash equivalents held as at 30 June 2025 and net repayment from subsidiaries during 1H 2025.
- Current liabilities: The decrease in current liabilities was mainly due to refinancing of loans and borrowings with longer tenures and lower interest payable, partially offset by additional loans and borrowings (net) taken up as at 30 June 2025.
- **Non-current liabilities**: The increase in non-current liabilities was mainly due to refinancing of loans and borrowings as long-term liabilities during 1H 2025.

#### 2.2 Notes to the consolidated income statement

Items included in profit before income tax from continuing operations:

- Net gain on disposal of property, plant and equipment in 1H 2025 was attributed mainly to the Group's Building Materials Unit ("BMU") and Yuchai. Net gain on disposal of property, plant and equipment in 1H 2024 was attributed mainly to Group's Rigid Packaging Unit ("Rex").
- Net impairment losses recognised for trade and other receivables in 1H 2025 and 1H 2024 were attributed mainly to Yuchai.
- Net allowances made for inventories obsolescence in 1H 2025 were mainly attributed to Yuchai. Net allowances written back for inventories obsolescence in 1H 2024 were attributed mainly to Yuchai.
- The lower depreciation and amortisation recorded in 1H 2025 as compared to 1H 2024 were mainly due to higher proportion of fully depreciated property, plant and equipment, partially offset by additional capital expenditure and increase in technology know-how (and its amortisation) during the period.

#### 2. Notes to the financial statements for the half year ended 30 June 2025 (cont'd)

#### 2.2 Notes to the consolidated income statement (cont'd)

Items included in profit before income tax from continuing operations: (cont'd)

The net foreign exchange gain recorded in 1H 2025 was mainly due to (a) foreign exchange gain on revaluation of SGD assets in China Yuchai International Limited ("CYI") (with functional currency in United States dollar ("USD")) as SGD strengthened against USD, and (b) realised foreign exchange gain on Euro-denominated trade sales and USD-denominated trade purchases. This was partially offset by foreign exchange loss on USD-denominated monetary assets, due to the weakening of USD against SGD and foreign exchange loss on revaluation of SGD-denominated liabilities in subsidiaries with functional currency in Malaysian Ringgit ("RM") as a result of the weakening of RM against SGD.

The net foreign exchange gain recorded in 1H 2024 was mainly due to foreign exchange gain on revaluation of USD assets, as a result of the weakening of SGD against USD. This was partially offset by foreign exchange loss on revaluation of SGD assets in CYI.

- The decrease in interest expense in 1H 2025 was due mainly to lower bank interest rates and bank loan principal.
- Interest income in 1H 2025 was lower than 1H 2024 mainly due to lower fixed deposits placed.
- The write-offs of property, plant and equipment in 1H 2025 were recorded by Yuchai and BMU. The write-offs of property, plant and equipment in 1H 2024 were recorded mainly by Yuchai.

#### 3. Review of performance of the Group

The Group operates mainly in China, Singapore and Malaysia. The main business units of the Group are Yuchai and BMU.

In China, National Bureau of Statistics reported that GDP grew 5.2% in the second quarter ("**2Q**") of 2025 from a year earlier, slowing from 5.4% in the first quarter. On a quarter-by-quarter basis, the GDP for 2Q 2025 increased by 1.1%, compared with a 1.2% gain in the previous quarter. China's economy slowed in 2Q 2025 as analysts warn of underlying weakness and rising risks that will ramp up pressure on Beijing to roll out more stimulus<sup>1</sup>. Against a challenging market backdrop, Yuchai reported a significant increase in profits, boosted by strong volume growth.

In Singapore, the Ministry of Trade and Industry announced that growth in the construction sector came in at 6.0% year-on-year for 2Q 2025, faster than the 4.9% expansion in the first quarter. Growth during the quarter was supported by expansions in both public sector and private construction output<sup>2</sup>. Pick-up in precast concrete volume for BMU in Singapore ("BMU Singapore") was seen with the commencement of new projects. However, ready-mix concrete volume was affected by delays in capacity replacement.

<sup>1</sup> https://www.reuters.com/world/china/chinas-q2-gdp-grows-52-yy-above-market-forecast-2025-07-15/

<sup>2</sup> https://www.singstat.gov.sg/-/media/files/news/gdp2q2025.ashx

#### 3. Review of performance of the Group (cont'd)

The Department of Statistics Malaysia announced that the construction sector registered double-digit growth of 11.0% in 2Q 2025 as compared to 14.2% in the first quarter<sup>3</sup>. Profitability for BMU in Malaysia ("**Tasek**") improved with better performance from concrete business and associates, on the back of operational efficiency gains and appreciation of RM against SGD. However, cement business reported a decline in sales volume and profits, despite the softening of fuel costs.

#### 1H 2025 versus 1H 2024

#### Notes:

- (a) Approximately 89% of the Group's total revenue is generated from its businesses in China. For the half year ended 30 June, translation of income statements from RMB to SGD had been made at the average exchange rates of RMB5.4970 = SGD1.00 for 1H 2025 and RMB5.3648 = SGD1.00 for 1H 2024. For 1H 2025, RMB depreciated by about 2.5% as compared to 1H 2024.
- (b) Discontinued operation Airwell Air-conditioning Technology (China) Co., Ltd. and its subsidiary, Airwell Air-conditioning (Hong Kong) Company Limited (collectively, "Airwell") had ceased business operations in 2020. Accordingly, the operating performance of Airwell had been presented separately under "discontinued operation" in the income statement for 1H 2025 and 1H 2024.

Revenue for the Group was \$2.829 billion in 1H 2025, an increase of \$577.8 million or 25.7%, from \$2.251 billion in 1H 2024. The increase in revenue was mainly due to higher revenue recorded by Yuchai.

- Yuchai's revenue increased by \$590.4 million or 30.8% as compared to 1H 2024. The total number of engines sold by Yuchai in 1H 2025 was 250,396 units, a 29.9% increase as compared to 192,743 units sold in 1H 2024. The increase was mainly due to higher unit sales in almost every engine segment. Truck and bus engines unit sales rose by 38.0%, despite statistics from the China Association of Automobile Manufacturers reporting a decline in sales of commercial vehicles (excluding gasoline-powered and electric-powered vehicles) by 2.6% as compared with 1H 2024. Engines sales to the off-road markets increased by 17.5% in 1H 2025 as compared with 1H 2024, led by a 31.5% year-over-year increase in unit sales to the marine and power generation markets. Engines for industrial applications rose by 27.2% in 1H 2025, compared with 1H 2024 while engine sales for agricultural equipment experienced modest growth in 1H 2025.
- BMU's revenue decreased by \$11.3 million or 3.5% as compared to 1H 2024, largely
  due to lower sales volume for ready-mix concrete and cements, which was partially
  offset by improvement in precast concrete sales volume.

The Group's gross profit was \$427.5 million in 1H 2025, an increase of \$66.8 million from \$360.7 million in 1H 2024. This was mainly due to increase in gross profit recorded, with higher sales volume, for Yuchai. The Group's gross margin decreased to 15.1% in 1H 2025 as compared to 16.0% in 1H 2024.

Other income, which comprised mainly government grants and VAT rebate, interest income, technology licensing income and foreign exchange gain, was \$43.4 million in 1H 2025, an increase of \$0.2 million from \$43.2 million in 1H 2024. The increase was largely due to technology licensing income recognised in 1H 2025 and higher VAT rebates, partially offset by lower interest income and net foreign exchange gain.

<sup>-</sup>

<sup>3</sup> https://www.dosm.gov.my/portal-main/release-content/advance-gross-domestic-product-gdp-estimates-second-quarter-2025

#### 3. Review of performance of the Group (cont'd)

#### 1H 2025 versus 1H 2024 (cont'd)

Selling and distribution expenses were \$119.3 million in 1H 2025, an increase of \$7.6 million or 6.8% as compared to \$111.7 million in 1H 2024, largely due to higher staff costs for Yuchai.

Research and development ("**R&D**") expenses were \$86.7 million in 1H 2025, an increase of \$13.3 million or 18.2% as compared to \$73.4 million in 1H 2024, largely due to higher experimental costs and staff costs for Yuchai. Total R&D expenditures (including capitalised costs) were \$100.4 million representing 4.0% of Yuchai's revenue in 1H 2025, as compared to \$86.3 million, or 4.5% of Yuchai's revenue, in 1H 2024.

General and administrative expenses were \$127.2 million in 1H 2025, an increase of \$25.8 million or 25.5% as compared to \$101.4 million in 1H 2024. The increase was mainly due to higher staff costs for Yuchai.

Finance costs were \$12.8 million in 1H 2025, a decrease of \$5.2 million or 28.9% as compared to \$18.0 million in 1H 2024. This was mainly due to lower interest rates and bank loan principal.

Other expenses were \$0.2 million in 1H 2025, a decrease of \$0.1 million from \$0.3 million in 1H 2024.

Share of results of associates and joint ventures was a profit of \$24.5 million in 1H 2025 as compared to \$21.3 million in 1H 2024. This was mainly due to better performance from a joint venture of Yuchai, partially offset by the absence of share of gain of \$3.3 million recognised by an associate relating to disposal of its own associate in 1H 2024.

In conclusion, profit from continuing operations was \$121.2 million in 1H 2025 as compared to \$92.4 million in 1H 2024. Profit attributable to the owners of the Company was \$56.0 million in 1H 2025, an increase of \$6.5 million or 13.1% as compared to \$49.5 million in 1H 2024. Adjusting for one-off gain of \$3.3 million being share of gain recognised by an associate relating to disposal of its own associate in 1H 2024, PATMI for 1H 2025 would have increased by \$9.8 million or 21.2% year-on-year.

#### **Working Capital and Cash Flow**

The Group had cash and short-term deposits of \$1.540 billion as at 30 June 2025 compared with \$1.352 billion as at 31 December 2024.

During the period under review, the Group generated operating cash inflow before changes in working capital of \$275.7 million and net cash inflow from operating activities of \$397.5 million. This was mainly due to higher trade and other payables, partially offset by higher trade and other receivables as compared to 31 December 2024.

The net cash outflow from investing activities of \$0.6 million was mainly due to purchase of property, plant and equipment and addition of intangible assets. This was partially offset by dividends received from associates and joint ventures, net release of bank deposits and interest received.

The net cash outflow from financing activities of \$130.1 million was mainly due to net repayment of borrowings of \$64.1 million, dividends paid to shareholders of the Company and non-controlling interests of subsidiaries of \$46.5 million and interest payments.

#### 3. Review of performance of the Group (cont'd)

#### Working Capital and Cash Flow (cont'd)

As reported in the Group's results announcement for the third quarter of 2018 dated 14 November 2018, the Company had raised net proceeds of \$201.1 million from the rights issue exercise in October 2018. On 11 August 2023, the Group had announced that \$188.0 million of the net proceeds had been utilised. Since then, no further utilisation of the rights proceeds has been made, and other than previously announced, the remaining unutilised funds had been used in the interim to repay short-term revolving facilities pending future deployment. The Company will make periodic announcements via SGXNET on the further deployment of the rights proceeds.

4. Where a forecast, or prospect statement, has been previously disclosed to shareholders, any variance between it and the actual results.

None.

5. A commentary at the date of the announcement of the significant trends and competitive conditions of the industry in which the group operates and any known factors or events that may affect the group in the next reporting period and the next 12 months.

In China, Yuchai had grown strongly in 1H 2025, with an improved market position despite a mixed domestic market. Beyond growth from the export of commercial vehicles internationally, Yuchai's 50/50 joint-venture MTU Yuchai Power Company Limited is expanding its capacity to meet growing demand especially for data centre applications. Yuchai also continues to invest in R&D initiatives to improve its powertrain solutions, including the development of clean heavy-duty gas engines and New Energy powertrain products.

In Singapore, the outlook remains positive for BMU Singapore as order books for the precast concrete and ready-mix concrete segments continue to grow from new projects. This is in line with the Building and Construction Authority's projection of the total value of construction contracts to be awarded in 2025 to rise to between S\$47 billion and S\$53 billion<sup>4</sup>.

Tasek expects Malaysian demand for building materials to improve with increased infrastructure development, aided further by growth in the development of Johor-Singapore Special Economic Zone<sup>5</sup>. While overall operating costs are on the rise with the increase in Sales and Services Tax, Tasek is focused on improving its scale and operational efficiency, increasing the use of alternative raw materials and alternative fuels in the ongoing efforts to cut costs and be more sustainable.

Looking ahead, the Group does not expect the US tariffs to have any direct impact on its operations. However, uncertainties with the global economy and the key markets that the Group serves will continue to persist in this new era. Management will remain focused on building the order books, improving operational efficiencies and managing costs to stay relevant and resilient.

Barring unforeseen circumstances, the Group expects its businesses to deliver satisfactory results in 2025.

### 6. Dividend

(a) Current Financial Period Reported On

Any dividend declared for the current financial period reported on? Yes

| Name of Dividend          | Interim                    |
|---------------------------|----------------------------|
| Dividend Type             | Cash                       |
| Dividend Amount per Share | 2 cents per ordinary share |
| (in cents)                |                            |
| Tax Rate                  | Tax Exempt (1-tier)        |

(b) Corresponding Period of the Immediately Preceding Financial Year

Any dividend declared for the corresponding period of the immediately preceding financial year? Yes

| Name of Dividend                     | Interim (Paid)            |
|--------------------------------------|---------------------------|
| Dividend Type                        | Cash                      |
| Dividend Amount per Share (in cents) | 1 cent per ordinary share |
| Tax Rate                             | Tax Exempt (1-tier)       |

- (c) Date payable
- 9 September 2025
- (d) Record date
- 5.00 p.m. on 28 August 2025

# 7. If no dividend has been declared/recommended, a statement to that effect and the reason(s) for the decision.

Not applicable.

#### 8. Interested person transactions

| Name of Interested Person ("IP") | Nature of Relationship   | Aggregate value of all interested person transactions for 1H 2025 conducted under shareholders' mandate pursuant to Rule 920 (excluding transactions less than \$100,000) |

12 August 2025

# Confirmation by the Board of Directors of the Company (the "Board") pursuant to Rule 705(5) of the Listing Manual

The Board hereby confirms that to the best of its knowledge, nothing has come to its attention which may render the unaudited condensed interim consolidated financial statements of the Group for the half year ended 30 June 2025 to be false or misleading in any material respect.

On behalf of the Board

Kwek Leng Peck Stephen Ho Kiam Kong

Executive Chairman Executive Director and Chief Executive Officer

12 August 2025

#### Media Release

## Hong Leong Asia's 1H 2025 PATMI Rises 13.1% to S\$56 million

- Group revenue increased 25.7% year-on-year, driven by strong growth from Powertrain Solutions and Precast Concrete volumes
- Doubles interim dividend to S\$0.02/share for 1H 2025

Singapore, August 12, 2025 – Hong Leong Asia ("HLA") and together with its subsidiaries, the "Group"), a diversified Asian multinational with core businesses in powertrain solutions ("Yuchai") and building materials ("BMU"), today announced attributable net profit ("PATMI") of S\$56.0 million for the half year ended 30 June 2025 ("1H 2025"), an increase of 13.1% year-on-year ("YoY").

#### **1H 2025 FINANCIAL SUMMARY**

|   | 1H 2025   | 1H 2024   | +/-   |
|---|-----------|-----------|-------|
|   | S\$'000   | S\$'000   | %     |
| Revenue                                 | 2,828,957 | 2,251,215 | 25.7% |
| Net Profit after tax                    | 121,151   | 92,529    | 30.9% |
| Net Profit Attributable to Shareholders | 56,011    | 49,544    | 13.1% |
| Earnings Per Share (cents)              | 7.49      | 6.62      | 13.1% |
| Dividend Per Share (cents)              | 2.00      | 1.00      | 100%  |

Group revenue for 1H 2025 increased by 25.7% YoY to S\$2.8 billion, led by strong growth from powertrain solutions.

PATMI for 1H 2025 rose by 13.1% YoY to S\$56.0 million, bolstered by strong performance at Yuchai and higher precast concrete volumes in 1H 2025. Excluding last year's one-time gain of S\$3.3 million from disposal of associate, 1H 2025 PATMI grew 21.2% YoY.

In China, Yuchai's 1H 2025 revenue grew 30.8% YoY to S\$2.5 billion, with reportable segment profit after tax of S\$96.8 million, up 56.4% YoY. Powertrain units sold in 1H 2025 increased 29.9% YoY to 250,396 units, with growth in all key powertrain segments. In the power generation segment, especially for data centres, robust sales have contributed to the strong results. Export sales volumes from OEM customers were notably strong in 1H 2025 and Yuchai gained market share in almost all segments amidst a weak domestic market<sup>1</sup>.

For overseas market development, Yuchai's subsidiary in Thailand and a strategic cooperation with Kim Long Motor Hue, a subsidiary of Vietnam's FUTA Group, have deepened Yuchai's market penetration into the growing ASEAN market.

In Singapore and Malaysia, BMU's revenue declined 3.5% YoY to \$\$310.2 million, with reportable segment profit after tax of \$\$37.5 million, a decline of 10.5% YoY. This is largely due to lower sales volume for ready-mix concrete, which was partially offset by higher precast concrete sales volume. Despite the volume drop caused mainly by delays in capacity replacement, BMU's order book grew in 1H 2025, supported by the rise in commercial and public housing projects. Profitability of BMU in Malaysia ("Tasek") was lifted by operational efficiency gains in its ready-mixed operations and improvements at its key associate.

HLA Board of Directors is pleased to declare an interim dividend of S\$0.02 per share for 1H 2025, doubling the interim dividend of S\$0.01 per share for 1H 2024.

#### **Market Outlook**

**China**: Yuchai had grown strongly in 1H 2025, with an improved market position despite a mixed domestic market. Beyond growth from the export of commercial vehicles internationally, Yuchai's 50/50 joint-venture MTU Yuchai Power Company Limited is expanding its capacity to meet growing demand especially for data centre applications. Yuchai also continues to invest in R&D initiatives to improve its powertrain solutions, including the development of clean heavy-duty gas engines and New Energy powertrain products.

**Singapore**: Outlook remains positive for BMU in Singapore as order books for the precast concrete and ready-mix concrete segments continue to grow from new projects. This is in line with the Building and Construction Authority's projection of the total value of construction contracts to be awarded in 2025 to rise to between S\$47 billion and S\$53 billion<sup>2</sup>.

**Malaysia**: Tasek expects Malaysian demand for building materials to improve with increased infrastructure development, aided further by growth in the development of Johor-Singapore Special Economic Zone<sup>3</sup>. While overall operating costs are on the rise with the increase in Sales and Services Tax, Tasek is focused on improving its scale and operational efficiency,

<sup>&</sup>lt;sup>1</sup> China Association of Automobile Manufacturer's data showed a 2.6% YoY decline in commercial vehicles sales in 1H 2025.

<sup>2</sup> https://www1.bca.gov.sg/about-us/news-and-publications/media-releases/2025/01/23/construction-demand-to-remain-strong-for-2025

<sup>3</sup> https://www.mida.gov.my/mida-news/js-sez-to-foster-collaboration-between-johor-and-singapore-for-global-investments/

increasing the use of alternative raw materials and alternative fuels in the ongoing efforts to cut costs and be more sustainable.

Looking ahead, the Group does not expect the US tariffs to have any direct impact on its operations. However, uncertainties with the global economy and the key markets that the Group serves will continue to persist in this new era. Management will remain focused on building the order books, improving operational efficiencies and managing costs to stay relevant and resilient.

Barring unforeseen circumstances, the Group expects its businesses to deliver satisfactory results in 2025.

#### **About Hong Leong Asia:**

Hong Leong Asia Ltd. has been listed on the Singapore Exchange since 1998 and is part of Hong Leong Group, a Singapore-based conglomerate. We are a diversified Asian multinational with core businesses in building materials and powertrain solutions. We work closely with customers to develop and deliver innovative and sustainable solutions for cities of the future.

For more information, please visit https://www.hlasia.com.sg or follow us on LinkedIn.

#### **About Hong Leong Group:**

Hong Leong Group Singapore is a globally diversified company and one of Asia's largest and most successful conglomerates. Headquartered in Singapore, the Group has assets in property investment and development, hotel ownership and management, financial services and industrial enterprises across Asia-Pacific including China, the Middle East, Europe and North America.

| Net Cash Flow   | 266,706           | 81,403            |
| Free Cash Flow  | 336,944           | 1,934             |

## **KEY BUSINESS UPDATES**

#### **Business Segment**

## Powertrain Solutions

#### **Business Updates**

- 250,396 powertrain units sold in 1H 2025, an increase of 29.9% YoY. This was led by strong export volumes from OEM customers as well as market share gains amidst a weak domestic market.
- Volume growth led by truck and bus engines (+38.0% YoY), marine/genset (+31.5% YoY) and in industrial applications (+27.2% YoY). Added MTU-2000 engines and Yuchai-branded VC series engines which widened portfolio in the growing data centre market.
- R&D initiatives to develop New Energy powertrains like hybrids, integrated electric drive axles, hydrogen fuel cell, hydrogen engines as well as the development of clean heavy-duty gas engines.

#### **Some Key Developments:**

- ❖ Deepened market penetration into the growing ASEAN markets. Yuchai Machinery Power System (Thailand) Co., Ltd. commenced production of the first K08 engine in 1H 2025. Comprehensive strategic cooperation agreement with Kim Long Motor Hue, a subsidiary of Vietnam's FUTA Group.
- Chinese Government programme on large scale equipment renewal announced in July 2024 to incentivise scrapping of older commercial vehicles and equipment in place of newer more energy efficient solutions. Long term bonds issue to help fund these schemes.
- ❖ A cash dividend of US\$ 0.53 per ordinary share for FY 2024 was paid by China Yuchai in July 2025.

## **KEY BUSINESS UPDATES**

#### **Business Segment**

## **Building Materials**

#### **Business Updates**

- Improvement in prefabrication volumes in R3 Precast on continued HDB building programmes.
- Lower sales volume for ready-mix concrete caused by delays in capacity replacement.
- BMU's order books in Singapore continue to grow from public and private sector projects.
- In Malaysia, Tasek's (integrated cement plant and ready-mixed concrete) profitability was lifted by operational efficiency gains in its ready-mixed operations and improvements at its key associate.
- Tasek continues to improve its scale & operational efficiency and increase the use of alternative fuels and alternative raw materials.

#### **Some Key Developments:**

- Investments in new batching plants in Punggol Timor and the Ready-Mixed Concrete Ecosystem at Jurong Port ("RMC JP") have positioned the Group for further growth in Singapore.
- Pilot for a fully autonomous front wheel loader in the second half of 2025 at RMC JP.
- Challenges from Malaysian government's removal of subsidies, imposition of Sales & Services Taxes.
  Tasek continues to work on its footprint expansion.

### **AWARDS & ACCOLADES**

- Ranked 113<sup>th</sup> for Fortune Southeast Asia 500 companies list,
   June 2025
- Named one of Top 20 Small Cap Jewels 2025 by RHB Singapore, *May 2025*
- Ranked 158<sup>th</sup> as one of Singapore's Best Employers by The Straits Times and Statista, *April 2025*
- One of six companies named for exemplary diversity standards in the 2025 Singapore Board Diversity Index (mid-cap category), January 2025

Singapore Board Diversity

Review 2025

### SUSTAINABILITY

At HLA, our vision is to develop and deliver sustainable and innovative urban solutions for cities of the future.

In pursuit of this vision, we are committed to integrating sustainability into our business strategy. Empowering our people and driving innovation in low carbon and circular solutions for the built environment and transport sectors are crucial focus areas of our strategy.

Achieving our vision will not be easy. It will require investment, concerted effort and time, but it is an imperative for HLA given the global and local sustainability contexts facing our businesses.

We are committed to achieving the following focus Sustainable Development Goals throughout our operations and in our strategy:

#### **DRIVING INNOVATION FOR** A LOW-CARBON AND CIRCULAR

#### Island Concrete -Achieved Environmental Product Declaration (EPD) process certification for 5 batching plants to provide EPD certified ready-mix concrete products.

**KEY 1H 2025 INITIATIVES** 

- BMU, Malaysia Achieved the highest ever usage of Alternative Fuels at 21%.
- HLA & BMU approximately 60 employees engaged with students from Xingnan Primary for Youth4Planet Challenge.

BUILDING **RESILIENCE FOR** THE LONG-TERM

HLA – joined the United Nations Global Compact Network.
